What's New From Headquarters

We're hoping you like our simpler hard copy format. We are in the process of moving many parts of Navtech USSA to a more convenient online format. It is very important that you keep your web listing up to date for a number of reasons including recommendation and reference as well as fact checking by insurance companies and banks. Especially exciting is the availability of our new CPU credit and continuing education course via our website portal. Members who renew and complete this new online only course—ABSOLUTELY FREE—will receive a certificate of completion with a voucher for 8 CPU credits. Follow the instructions and complete all activities. Take the exam. 90 percent required passing.

We are also slowly building our FACEBOOK page. Like it or not, FACEBOOK is a powerful communication too for worldwide reach. Please go to FACEBOOK and "like" us. It is linked to our home page as well. All updates are now online at our home page behind the members only portal. Thank you to everyone who is sending in survey pictures. They are posted to the members only as well as to FACEBOOK. Some are so very interesting. We have the most ongoing professionally trained surveyors.

As you know, we are approaching 30 years of training. I don't believe I've ever experienced a cultural and economic downturn as the last year or two. But we have enormous faith in you and our ability to train you. Keep the requests for references, recommendations, and restrictions of trade stoppage coming.

Thank you for renewing early. It is so much appreciated in organizing the end of the year. This will be your only hard copy. All updates are posted online at Members Only Newsletter. Please email your concerns & questions.
